Contents of Volume 11

No. 1, January 1991

Announcement from the Publisher v

Calcium metabolism and bone mineralization in female rats fed diets marginally sufficient in calcium: effects of increased dietary calcium intake
M.L. Thomas, D.J. Simmons, L. Kidder and M.J. Ibarra (USA) 1

A stable analogue of thromboxane A_2, 9,11-epithio-11,12-methanothromboxane A_2, stimulates bone resorption in vitro and osteoclast-like cell formation in mouse marrow culture
S. Saito, K. Yamasaki, S. Yamada, A. Matsumoto, T. Akatsu, N. Takahashi, Y. Shibasaki, T. Suda and T. Fukuhara (Japan) 15

Transdifferentiation of hypertrophic chondrocytes into osteoblasts in murine fetal metatarsal bones, induced by co-cultured cerebrum
C.W. Thesingh, C.G. Groot and A.M. Wassenaar (The Netherlands) 25

Bone-derived growth factors modulate collagenase and TIMP (tissue inhibitor of metalloproteinases) activity and type I collagen degradation by mouse calvarial osteoblasts
M.C. Meikle, A.M. McGarrity, B.M. Thomson and J.J. Reynolds (England) 41

Bone growth and mineralisation in children aged 4 to 10 years
J.A. DePriester, T.J. Cole and N.J. Bishop (England) 57

Selected Bibliography 67

Calendar of Forthcoming Events 70

No. 2, February 1991

Announcement from the Publisher iii

Stimulation of calcitonin secretion in the pig by calcitonin gene-related peptide
C.W. Cooper, M.B. McPherson, P.K. Seitz, G.H. Greeley, S.K. Abbas, D.W. Pickard and A.D. Care (USA & England) 73

Thrombin increases cytoplasmic Ca^{2+} and stimulates formation of prostaglandin E_2 in the osteoblastic cell line MC3T3-El
Ö. Ljunggren, H. Johansson, S. Ljunghall and U.H. Lerner (Sweden) 81

Bone mineral density of the spine and radius shaft in children with X-linked hypophosphatemic rickets (XLH)
M.B. Oliveri, H. Cassinelli, C. Bergadá and C.A. Mautalen (Argentina) 91

A reconstruction of the remodelling cycle in normal human cortical iliac bone
M.O. Agerbæk, E.F. Eriksen, J. Kragstrup, Le. Mosekilde and F. Melsen (Denmark) 101

Direct and indirect assessment of the parathyroid hormone response to pamidronate therapy in Paget's disease of bone and hypercalcaemia of malignancy
W.D. Fraser, F.C. Logue, S.J. Gallacher, D.St.J. O'Reilly, G.H. Beastall, S.H. Ralston and I.T. Boyle (Scotland) 113

Bone mineral density and physical activity in 50–60-year-old women
S. Cheng, H. Suominen, T. Rantanen, T. Parkatti and E. Heikkinen (Finland) 123

Selected Bibliography 133

Calendar of Forthcoming Events 136

Announcement 138

No. 3, March 1991

Announcement from the Publisher iii

Skeletal development and formation of osteoclast-like cells from in situ progenitors in fetal mouse metatarsals cultured in chemically defined medium
C. Minkin, S. St. James, H.-h. Tao, X.-h. Yu, S. Pockwinse, C. MacKay and S.C. Marks, Jr. (USA) 141

Effects of continuous infusion of parathyroid hormone and parathyroid hormone-related peptide on rat bone in vivo: comparative study by histomorphometry
R. Kitazawa, Y. Imai, M. Fukase and T. Fujita (Japan) 157

Bone particles from gallium-treated rats are resistant to resorption in vivo
R. Donnelly, R.S. Bockman, S.B. Doty and A.L. Boskey (USA) 167

A 7–34 analog of the parathyroid hormone-related protein has potent antagonist and partial agonist activity in vivo
N. Horiuchi, T. Hongo and T.L. Clemens (USA) 181

The clinical application of serial bone mass measurements
P.D. Ross, J.W. Davis, R.D. Wasnich and J.M. Vogel (USA) 189

Bone mineral content of British and rural Gambian women aged 18–80+ years
A. Prentice, J. Shaw, M.A. Laskey, T.J. Cole and D.R. Fraser (England and The Gambia) 201
